Since each applicant is an academically talented student, your careful assessment of the significance and feasibility of this student’s contributions and project and of his/her ability to complete it is very important to the Honors Committee's evaluation of the proposals. Please return the completed form (or a letter that addresses the items listed on this form) to the Arts and Sciences Honors Office, 3180 Smith Lab, 174 West 18th Avenue (e-mail to braund.11@osu.edu) on or before September 16, 2019.

1. What is the significance of the proposed project and the student’s contributions?

2. Given a time period of one semester (i.e., the scholarship period, which is Spring Semester 2020) and the potential resources available, is this project feasible? Also, if applicable, please address if IRB or IACUC approval is needed (or has already been submitted or obtained).
3. How well prepared is the student to undertake the project?

4. Are you willing to commit yourself to, and does your schedule permit, supervision of the project throughout the scholarship period (Spring Semester 2020)?

5. Please address the issue of the relative independence of the project with regard to your own research.

6. If the student has previously received funding for his or her work on this project, please address details such as what that funding supported, how well the project has progressed, and why additional funding would be appropriate for this student.

7. Additional comments may be included on a separate sheet.
