

**ARTS AND SCIENCES
GRADUATION WITH RESEARCH DISTINCTION
FACULTY REPRESENTATIVES
FOR THE ORAL EXAMINATION COMMITTEE**

The oral examination committee is made up of three faculty members: the project advisor and two additional faculty members. Any regular OSU faculty member is qualified to serve as a faculty representative. The following list contains some of the faculty who have served as (honors) research thesis project advisors. You should not restrict your choice of a faculty representative to those on this list. Many faculty who are not on this list would be pleased to serve as an oral examination committee member and would bring to that role a special expertise that would be beneficial to your project. If you have any questions, do not hesitate to call the Arts and Sciences Honors Office, 292-5104.
